

EVENING

*Beautifully designed decor
Executed to perfection*

As **Event Designers** and **Creative Florists** our aim is to provide **exceptional decor** for our clients.

We want your wedding to be like no other, to be **unique** just for you and your partner.

After a consultation, we get working on ideas, putting together plans and designs to present to you – giving you a clear vision of what we can do for your special day. We take care of all the decor, flowers, linen, backdrops, candles, props and more. This allows us to make sure every detail is **absolute perfection**.
